

Play by Design Pty Ltd, is a specialist team of Landscape Architects providing spaces which focus on children's play. We are seeking to engage a Graduate Landscape Architect for the role of a play consultant in our small but dynamic office.

Our office provides complete solutions from initial planning and design and consultation for playspaces. Our extensive experience is built from a team of landscape architects with a broad background in designing, managing and developing unique playspaces for both the public and private sectors. Play by Design are also the exclusive agents in NSW and the ACT for Kompan, Corocord and Rhino., leading manufacturers of play equipment. The products include toddlers' play, children's play, teenage play, multi-sport facilities, skateparks, fitness equipment, water play and cable rope products.

The role includes:

- consultation with design professionals, developers, Local Government and schools
- design, using CAD and Photoshop
- preparation of quotations and tenders
- project management

Experience in community consultation, sales and construction will be well regarded. Applicants must be excellent communicators, as the development of client relationships will be important.

A vehicle is provided in the salary package, as the position will require some country travel.
