

jw CONCEPTS is a growing locally focused Landscape Architectural practice based in Brisbane.

We provide personalised service for Landscape Architecture and environmental management including Masterplanning, Commercial projects, Open Space Planning, Vegetation Management , Residential Design, and Maintenance management .

We are involved with resolution of impacts of broadscale developments, and the provision of sustainable and environmentally conscious design solutions in South East Queensland, and regional areas of Queensland and Australia.

A position exists for a Landscape Architect or Graduate Landscape Architect to join us and pursue environmentally based design work in a relaxed team situation.

Practical experience in projects including Concept Design, Contract Documentation and Administration, and Client, Consultant and Contractor liaison a benefit to applicants. The successful applicant will have a proven ability to communicate through a number of mediums, possess graphic and computer skills relevant to the current industry requirements and work independently on projects.

If you think you have the drive, talent and passion that compliments our team, please forward applications and resume / portfolio to Jonathan Weinert via email: jw@jwconcepts.com.au. no later than Friday 10th February 2012.
