

SOUTH AUSTRALIAN SITES

Suggested lists of landscape architecture sites and sites of interest to landscape architecture

The attached lists have been provided to give some guidance on some of the sites that could be visited during your stay in Adelaide.

The information is minimal. You may have to do some homework when mixing with local delegates on the Friday during the conference.

The other source is online: a few of the projects and links to more information.

<http://www.aila.org.au/projects/sa>

hope this helps. Apologies for the small amount of information – but we have been trying to extract it from the locals – maybe you can have more luck on Friday at the conference.

CBD		
<i>site</i>	<i>LAs</i>	<i>Location (simple Clues!)</i>
