Stardust Lounge, Level 3
UWA Faculty of Architecture, Landscape & Visual Arts

free event - no need to register
just turn up & enjoy a few drinks & snags after...

COTTESLOE, PEPPERMINT GROVE, MOSMAN PARK LIBRARY AND COMMUNITY LEARNING CENTRE

Newforms Pty Ltd

A project which demonstrates a number of cutting edge water conservation strategies and technologies integrated within the landscape, including rainwater harvesting, storm water treatment, and waste water reuse such as grey, black and yellow water. The project also demonstrates new ideas in what a Perth civic park setting can be.

HEIRISSON ISLAND SCULPTURE PARK

Urbis Pty Ltd

The project aims to create outstanding sculpture park that is sensitive to its unique ecological setting including:

- To provide a unique venue for the display of high quality exhibits of international standing
- To create a 'Landmark Entrance' or 'Gateway' to the City of Perth
- To rejuvenate an under-utilized part of the city with a sustainable, long term plan
- To create a unique tourist destination in the City of Perth
- To link different areas of activity around the city and the river
- To recognize the cultural sensitivities and heritage of Heirisson Island
- To protect the unique ecology of the environment
