

Sunday 6 March via email

Dear Sally

Many thanks for taking the time to make us aware of the Australian Institute of Landscape Architects' priorities ahead of the South Australian election.

Our policy team has reviewed the information you have provided and commend you on your suggestions. Your ideas will inform our thinking and be taken into consideration as part of our policy development process if we form government after March 19.

If you would like details of our already released policies, they can be accessed via our website at: [Peter Malinauskas MP | Policies](#)

Our policies on health, jobs, education and the environment outline a clear path forward, not just for the next four years but for the next generation.

Of particular interest to you will be our planning policy, which can be found here: [Planning for SA \(petermalinauskas.com.au\)](#)

Thanks again for getting in touch and we look forward to working with you in the future.

Kind regards,
